## **Online One Week Faculty Development Programme on Entrepreneurship Development**

**Date: 21<sup>st</sup> – 25<sup>th</sup>, December 2020**

The entrepreneurs play pivotal role in the economic development of any country. They make use of the factors of production to the fullest advantage of the society, generate employment, create innovation, improve standard of living, develop backward areas, etc. which leads to higher economic growth. The Faculty Development Programme (FDP) is designed to train and develop faculties in entrepreneurship development so that they can act as resource persons in guiding and motivating youth to take up entrepreneurship as a career. Through FDP, faculty members of educational institutions and Entrepreneurship Development Organisations are trained for a duration of 5 Days. FDP provide inputs on process and practice of entrepreneurship development, communication and inter-personal skills, creativity, problem solving, achievement-motivation, resource mapping, support ecosystem and all aspects of entrepreneurship. Training methodology includes case studies, group discussion, simulation exercises, field visits and classroom lectures. The programme aims at imparting to the faculties a thorough insight into the various aspects of enterprise creation, technical know-how, credit sources, marketing of products and changing trends of market in global scenario. The faculties will be able to understand the concepts of identification/ selection of projects and setting up of enterprise so as to guide prospective entrepreneurs to run their business successfully. While the programme incorporates a thorough briefing on Government support systems, it also includes additional benefits of being an Entrepreneur.

Program Objectives – Create an awareness of the need and importance of entrepreneurship; – Impart knowledge on diverse training methods in imparting training to students and entrepreneurs; – Impart knowledge on entrepreneurial opportunities; – Make them aware about entrepreneurial support ecosystem; – To impart knowledge on selecting the suitable entity for enterprise; – To make participants acquainted with the procedures and formalities for availing financial assistance from banks; – To impart knowledge on essential elements required for preparation of project report; – To impart knowledge on necessary managerial skills required to run the enterprise.

Entrepreneurship has become one of the driving forces of economic growth and development. Regional developments in different levels have emphasized the role of entrepreneurship as a tool of development. Under these circumstances, it has become imperative that awareness of entrepreneurship must be spread to the youth population of the country. In this regard, faculties across colleges and universities can play an important role in the development of the entrepreneurship mindset among the students. The (12) twelve days FDP programme was a structured training programme targeted at faculties across the country. The faculty development programme was conducted to promote faculties to act as a facilitator of entrepreneurship development cells in their respective institutions. Different pedagogical aspects of entrepreneurship education were introduced in the programme. In addition, diverse resources available to start entrepreneurship programmes in their respective institutions were also part of the programme. In the FDP, resource persons with different backgrounds utilized various pedagogy methods related to entrepreneurship education. Lectures, Participatory method, Simulation, Experiential learning, and Field Visit were used in the FDP. The goal of the FDP programme was to introduce faculties from different disciplines to the different dimensions of

## Report of Programme

### **ONE WEEK FACULTY DEVELOPMENT PROGRAM ON ENTREPRENEURSHIP DEVELOPMENT (FDP on entrepreneurship development)**

**Date: 16<sup>th</sup> – 20<sup>th</sup> November 2017**

#### **Summary:**

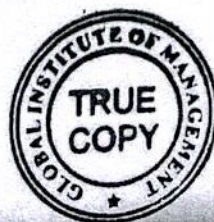

Entrepreneur development focus on training of individuals who are interested in commencing their venture or expanding their existing one. Entrepreneurship is the dynamic process of developing new with value by devoting the required time and effort, taking up financial risks and relishing the monetary rewards associated with it. Therefore, nurturing entrepreneurial qualities at an early age does pay dividends. Entrepreneurial courses have become the need of the day, particularly for the students of Management, science and technology, who can contribute significantly to the economic development of the country as well as generate employment. The Govt. directs phenomenal amounts of its investments to the same students and researchers and hence, such ventures should be directed judiciously. An encouraging point to note is that more educational institutions are increasingly showing their interest in entrepreneurship development programme. Several academic institutions, including those of management, science and technology, have already initiated courses of entrepreneurship in their respective institutions. However, the non-availability of expertise and experience of teaching entrepreneurship have proved to be major bottleneck for the faculty of polytechnics, science and engineering colleges. At the same time numbers of Institutions have also increased, who have yet to adopt entrepreneurship in their curriculum. It is imperative to train faculty for imbuing entrepreneurial spirit in the students to cultivate student's entrepreneur groups/ cells which will function as job creators rather than job seekers, once they complete their formal education.

The specialized faculty training is based on two specific needs:

- Need to inculcate the essence of entrepreneurship in students, men and women both, who require specialized efforts to be motivated for entrepreneurship and for self-employment.
- Need to develop expertise among the management, science and technology faculty for imparting entrepreneurship training/ teaching effectively and help create conducive environment for entrepreneurship development. Therefore, the need is immediate.

With professional experience in promoting professional & technical students as successful entrepreneurs, Global Institute of Management has initiated and accelerated the process of entrepreneurship development by faculty training programme at the national level.

The impact of India's movement is borne by the fact that the Indian model of entrepreneurship development is being adopted by some of the developing countries of Asia and Africa. The formal training sessions were include case studies, audio-visuals, field work and assignments, simulation exercises, lectures, discussions and counseling. It has also provided opportunities to participants

to test their acquired skills. Participants were given appropriate scope to formulate their ideas to be implemented in their institutions through formulation of action plan.

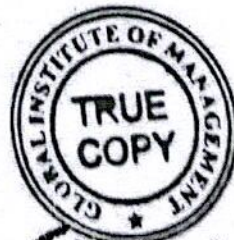

Global Institute of Management, Bhubaneswar imparting 2years full time Management program has successfully conducted and completed two days of One Week Faculty Development Programme (FDP) on Entrepreneurship Development from 16<sup>th</sup> November 2017 to 20<sup>th</sup> November 2017. The programme was coordinated by Mr. Rajaram Rout and convener to the program was Dr. Himadri Ranjan Mishra. 24 participants from different universities of Odisha have enrolled and 24 attained the programme on schedule.

Valedictory: The FDP will conclude with a valedictory session wherein certificate of Participation will be issued to the participants.
